Assignment B – Board Plan(s)

First Conditional | A2 Level | Teenagers 14–16

On this page, show what you would write on the whiteboard during the presentation stage, including: ***example sentences, timeline, form*** *and* ***function.***
Be realistic about how much you could put on the board during the lesson, and how much students would be able to read and take notes on.

Board Plan 1 – Form & Pronunciation

(Items added gradually as elicited from students during the Presentation stage. Grey italic text = teacher stage notes, not written on board.)

Teacher elicits from weather pictures and writes model sentence:

If it's sunny on Saturday,
we'll go to the beach.

Teacher elicits and writes negative:

If it isn't sunny on Saturday,
we won't go to the beach.

Teacher elicits and writes question form:

Will we go to the beach
if it's sunny on Saturday?

NEVER use 'will' in the if-clause!
X "If it will be sunny..." --> "If it is sunny..."

Teacher models and drills, then writes pronunciation notes:

Pronunciation
If it's sunny on Saturday □ , we'll go to the beach □
Contractions: it's / we'll / won't
Weak form: if /ɪf/ Stress on content words: SUNNY, BEACH

FIRST CONDITIONAL

Students copy sentences and pronunciation notes into notebooks.

Teacher builds form table as elicited from students:

First Conditional – Form

AFFIRMATIVE	IF + subject + present simple , subject + will + base verb
	If it's sunny on Saturday, we'll go to the beach.
NEGATIVE	IF + subject + present simple (neg) , subject + won't + base verb
	If it isn't sunny on Saturday, we won't go to the beach.
QUESTION	Will + subject + base verb + if + subject + present simple ?
	Will we go to the beach if it's sunny on Saturday?

Meaning / Function
We use the first conditional for real / likely future situations.

Key rule: No 'will' in the if-clause!
IF + present simple (NOT: If it will be...)

Teacher adds extra examples as students give them during practice check:

If I study hard tonight, I'll pass the test.
If it rains tomorrow, we won't go to the beach.
Will we go to the beach if it's sunny?

Students copy the form table into their notebooks before Board Plan 2.

Board Plan 2 – Concept (Meaning & Timeline)

After form stage: teacher asks students to copy form table, then clears the right side of the board and draws the timeline.

Left side stays from Board Plan 1:

If it's sunny on Saturday, we'll go to the beach.

If it isn't sunny, we won't go to the beach.

Will we go if it's sunny on Saturday?

Teacher asks CCQs — writes student answers on board:

Concept Check Questions
Teacher asks — students answer

Is it sunny right now?	**No / We don't know.**
Past, present or future?	**Future (Saturday).**
Is it possible it will be sunny?	**Yes — maybe.**
Are we certain it will be sunny?	**No!**
Will we definitely go to the beach?	**Only if it's sunny.**
Do we use 'will' in the if-clause?	**NEVER!**

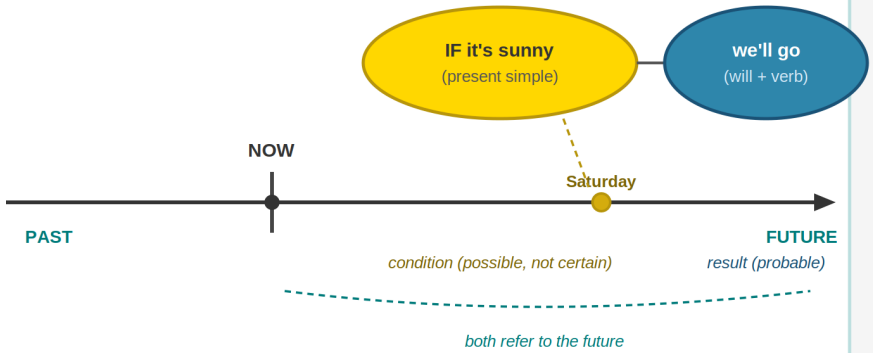
Teacher writes meaning statement after CCQ answers:

Meaning:
A real / likely future condition
and its probable result.

Students copy CCQ answers and meaning into notebooks.

Teacher draws this timeline on the right side of the board:

First conditional for real / likely future situations



Teacher writes the formula below the timeline:

IF + present simple	,	will + base verb
If it's sunny on Saturday ...		*... we'll go to the beach.*

Board stays visible during controlled practice. Teacher erases before freer practice (survey mingle).
